Appendix A - *Fees Act* 33

INTRODUCTION

The *Fees Act* (see **Appendix A)** received Royal assent in the spring of 2008. This legislation, which applies to Part I of the public service, established a transparent process governing fees charged by government departments.

It requires detailed information to be made public on all upcoming fee increases and all new fees at least 60 days before implementation by government departments.

The act also specifies that, by January 31st each year, the Minister of Finance must file a document containing such information with the Clerk of the Legislative Assembly. The 2013 document contains detailed information regarding new fees and fee increases planned by government departments for the upcoming fiscal year of 2013-2014.

The report also includes information such as the legal authority to charge each fee, the current fee amount, the new fee amount, effective date of the change, revenue details, and departmental contact information.

The first section in the 2013 report summarizes fee changes and/or new fees approved by the provincial Board of Management since publication of the 2012 report.

The second section summarizes upcoming fee changes and/or new fees approved by the Board of Management for the fiscal year 2013-2014. In keeping with the requirement of 60-day minimum notice to the public, none of these fees will take effect until at least April 1st, 2013. It is recommended that the effective dates specified in this report be verified with the respective departments as they may be extended following the publication of this report.

It should be noted that the *Fees Act* does allow a department to create or increase fees *during* the upcoming fiscal year. If this occurs, the individual department will file a document with the Clerk of the Legislative Assembly containing the same type of details as are included in this report. The fee change is also subject to the requirement of a minimum 60-day notice to the public.

If there are any mid-year changes, the details of these single filings will be summarized and published in the 2014 report on fees. This compilation will maintain accuracy and transparency concerning fees.

The report also includes information about a few fees being decreased or eliminated.

How to Read this Report

Section 3(2) of the *Fees Act* requires this *Annual Report on Fees* to present the following information for new and increased fees proposed for the next fiscal year:

(a) the name of the department that proposed the fee
(b) the name of the fee
(c) the legislative authority for the fee
(d) the amount of the current fee, if any
(e) the amount of the new fee or the increased fee
(f) the effective date for the new fee or the increased fee
(g) the total annual revenue expected from the fee
(h) the change in the annual revenue expected from the fee, and
(i) the name of the contact person.

In this report, the above information is presented in the following format:

Department Name **Contact:** Name, Telephone Number (506)	**Insert name of the Fee** Insert *Name of the Act* Insert Regulation Number
Current Fee: $X **Proposed Fee:** $Y **Effective Date:** Month, Day, Year	**New Annual Revenue Estimate:** $AA,AAA **Change in Annual Revenue:** $B,BBB
Comments:	

Readers should note that "New Annual Revenue Estimate" presents the total expected revenue from the fee at the proposed or increased rate for the upcoming fiscal year. "Change in Annual Revenue" indicates how much additional annual revenue is expected per fiscal year from the new fee rate, as opposed to the prior rate.

While the Minister of Finance is responsible to file this document each January with the Clerk of the Legislative Assembly, information about particular fees should always be obtained from the specific departments and contacts listed in the description of each fee.

This document, and future editions, will be posted in the Publications section of the finance department's website at http://www.gnb.ca/0024/index-e.asp

General information about fees charged by all government departments is available on the government's Web-based Directory of Services. This directory is located at http://www2.gnb.ca/content/gnb/en/services.html (Key word: fees)

Comments: A Maritime based Fair Market Value (FMV) study was finalized in the Fall of 2011. The FMV study was based on wood transactions from private land for a 12-month period that spanned the 2009-2010 calendar year. This study set the base fair market value for all forest products harvested from Crown land. The Department of Natural Resources tracked monthly finished product market indices for a 12-month period covering the fall of 2010 to the fall of 2011 and adjusted the fair market value based on the change in market indices for each product during that time. The 2012-2013 rates reflect the change in market value of the listed forest products during that time frame.
